

Kimberly Parker Gavaletz
Vice President and Deputy, Global Sustainment
Lockheed Martin Aeronautics

Kimberly Gavaletz serves as Vice President and Deputy for Global Sustainment at Lockheed Martin Aeronautics. In this role, she focuses on building relationships with senior level customers and partners to develop an enterprise-level, focused logistics business for Aeronautics and Lockheed Martin Corporation. She is responsible for establishing a lifetime support capability across Aeronautics, and she works closely with the corporation's Future Logistics Enterprise initiatives to further enlarge this corporate-wide business opportunity.

A Lockheed Martin employee since 1991, Mrs. Gavaletz joined the Aeronautics business area in January 2006 after serving as Vice President, Corporate Internal Audit, since August 2000. Prior assignments include Vice President, Deputy Program Manager on the Consolidated Space Operations Contract; Deputy Program Manager for the Mission Systems Organization (MSO); and leadership roles in the MSO Project Managers, Systems Engineering, Integration & Test and Software Development organizations.

Mrs. Gavaletz started her career at IBM in 1982 after receiving her degree in Math, as well as Math and Computer Science Teaching Certifications from Baylor University. She then held roles at IBM in technical and program management across NASA, IR&D and commercial oil industry and airline customers before joining Lockheed Martin.

In addition to her primary responsibilities, she is an executive sponsor for the Society of Women Engineers, on the board of MATHCOUNTS and a member of the Public Company Accounting Oversight Board Standing Advisory Group.

Mrs. Gavaletz and her husband Chuck have three daughters, Terri, Allyson and Rachel, and two grandchildren, Meghan and Rick.
