# New Auditor's Report – Auditor Tenure

The auditor's report must include a statement containing the year the auditor began serving consecutively as the company's auditor.

- ❑ Determining Auditor Tenure
  - ❑ Reflect the entire relationship between the company and the auditor
    - ❑ The auditor's relationship with the company is not affected by the company's status as a public company
  - ❑ Calculate taking into account firm or company mergers, acquisitions, or changes in ownership structure

# Auditor Tenure – Example A

- ❑ The auditor signs the engagement letter in December 2011 to audit W Broker's financial statements for the years ended December 31, 2012.
  
- ❑ The auditor would state in the auditor's report \_\_\_\_\_ as the year the auditor began serving consecutively as the company's auditor.

- ❑ Reporting of Tenure
  - ❑ Auditors have discretion to present auditor tenure in the part of the auditor's report they consider appropriate.
  - ❑ No required location is specified within the auditor's report.
  - ❑ If there is uncertainty as to the year the auditor began serving as the company's auditor, state that the auditor is uncertain as to the year and provide the earliest year of which the auditor has knowledge.
  - ❑ Auditors can provide additional information in the auditor's report about tenure, if the information would provide context or otherwise assist the reader's understanding of the relationship between the auditor and the company.

# Supplemental Information

- ❑ AS 2701, *Auditing Supplemental Information Accompanying Audited Financial Statements*, establishes the requirements that apply to reports on supporting schedules filed by the broker or dealer pursuant to SEC Rule 17a-5.
- ❑ AS 2701.11 allows the auditor's report on the supporting schedules to be included in the auditor's report on the financial statements, but does not specify a location.
- ❑ Since there is no specified location, the report on supporting schedules may be placed where the auditor considers appropriate.
- ❑ An appropriate section title may be added to aid the reader in distinguishing the auditor's report on supplemental information from the other sections of the auditor's report.

# Explanatory Paragraph Example

## Report of Independent Registered Public Accounting Firm

To the Directors and Equity Owners of W Broker

### Opinion on the Financial Statements

We have audited the accompanying statement of financial condition of W Broker as of December 31, 20X2, the related statements of [titles of the financial statements, e.g., income, changes in stockholders' equity, changes in liabilities subordinated to claims of general creditors, and cash flows], for the year ended December 31, 20X2, and the related notes [and schedules] (collectively referred to as the "financial statements"). In our opinion, the financial statements present fairly, in all material respects, the financial position of W Broker as of December 31, 20X2, and the results of its operations and its cash flows for the year ended December 31, 20X2, in conformity with [the applicable financial reporting framework].

### Going Concern

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. As discussed in Note X to the financial statements, the Company has suffered recurring losses from operations and has a net capital deficiency that raise substantial doubt about its ability to continue as a going concern. Management's plans in regard to these matters are also described in Note X. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

### Basis for Opinion

These financial statements are the responsibility of W Broker's management. Our responsibility is to express an opinion on W Broker's financial statements based on our audits.

\*\*\*

- ❑ Emphasis paragraph may be placed where the auditor considers appropriate.
- ❑ If the auditor includes an emphasis paragraph in the auditor's report, the auditor is required to use an appropriate section title.

# Understanding Internal Control Over Financial Reporting (ICFR)

- ❑ Sufficient understanding to:
  - ❑ Identify types of potential misstatements
  - ❑ Assess factors that affect the risks of material misstatement
  - ❑ Design further audit procedures
- ❑ Necessary procedures depend on various factors
- ❑ Includes evaluating design and implementation of controls

# TSI – Understanding ICFR

Controls identified during walkthrough procedures performed by the auditor:

1. Daily, the Accounting Manager reviewed reconciliations prepared by the Accounting Staff of clearing revenue to trading activity.
2. Weekly, the Operations Manager reviewed customer accounts for evidence of under-margined, partially secured, or unsecured accounts.
3. Monthly, the Accounting Manager re-performed the Accounting Staff's tracing of customer receivable and payable balances to customer statements.
4. Any changes to the Clearing Agreement are approved by the CFO.
5. Monthly, the CFO verifies completion of a sample of the daily, weekly, and monthly controls.

# What did the auditor fail to consider when evaluating the design effectiveness of the identified controls?

1. Whether discrepancies identified during the customer receivables & payables review are investigated, explained or resolved
2. Controls over the accuracy and completeness of information used in the performance of controls
3. The frequency, nature and extent of the CFO's review of the approved daily revenue reconciliations

# What did the auditor fail to consider when evaluating the design effectiveness of the identified controls?

1. Whether discrepancies identified during the customer receivables & payables review are investigated, explained or resolved
2. **Controls over the accuracy and completeness of information used in the performance of controls**
3. The frequency, nature and extent of the CFO's review of the approved daily revenue reconciliations

# How would you assess inherent risk for Clearing Revenue and Customer Receivables and Payables?

1. High for both
2. High for Clearing Revenue only
3. High for Customer Receivables and Payables only
4. Low for both

# How would you assess control risk for Clearing Revenue and Customer Receivables and Payables?

1. High for both
2. High for Clearing Revenue only
3. High for Customer Receivables and Payables only
4. Low for both

# Would you identify any significant risks, including fraud risks?

1. Yes, for Clearing Revenue and Customer Receivables and Payables
2. Yes, for Clearing Revenue only
3. Yes, for Customer Receivables and Payables only
4. No

# Audit Responses to the Risks of Material Misstatement

# Clearing Revenue – Tests of Controls

- ❑ Selected sample of daily reconciliations performed by Accounting Staff
- ❑ Re-performed work of Accounting Staff
- ❑ Observed Accounting Manager's signature on each reconciliation indicating that a review was performed of the reconciliation

Has the engagement team obtained sufficient evidence of the Accounting Manager's review to conclude that this control is operating effectively?

1. Yes
2. No

During its tests of detail of the clearing fee rates, the auditor detected that rates applied to trades from May through the end of the year for most security types did not agree with the executed clearing agreement. Which is true?

1. There is risk of a material error in Clearing Revenues.
2. The auditor should re-assess control risk.
3. Both 1 and 2.

# Customer Balances – Tests of Details

For a sample of customer accounts, sent requests to positively confirm the customer payable or receivable balance per the customer trial balance as of September 30:

- Prior to sending the confirmation the customer name and address was verified to the account opening agreement;
- For those confirmations returned, the auditor did not identify any exceptions. Certain replies were signed by someone other than the account holder.
- For non-replies, traced balances to the customer sub-ledger.

Certain replies were signed by someone different than the name on the account. The auditor concluded these confirmations were returned without exception. Do you agree with that conclusion?

1. Yes
2. No

# Customer Balances – Year-End Procedures

- ❑ Reconciled the December 31 customer sub-ledger to the general ledger.
- ❑ Inquired regarding a significant increase in customer payables balances between September 30 to December 31.
- ❑ For customer accounts confirmed at September 30, compared September 30 balances per the customer sub-ledger to December 31 and investigated differences exceeding a judgmental threshold.
- ❑ For a sample of accounts opened since September 30, sent positive confirmation requests.

Do the year-end procedures provide a reasonable basis for extending the conclusions regarding Customer Receivables and Payables from the interim date to the period end?

1. Yes – The procedures collectively provide sufficient evidence to extend the audit conclusions.
2. Yes – The procedure to extend the conclusion for the sampled accounts was sufficient.
3. No – A three-month rollforward period is too long.
4. It depends on the nature of the rollforward procedures for the sampled accounts.

1. Accounting Manager's review of balances, positions, and transactions per customer statements
2. Test of sub-ledger to Security Master File reconciliations
3. Customer confirmations
4. Both 1 & 2

  - ❑ Investigations focusing on the risks associated with cross border audits

# Information about Enforcement Matters in Certain Areas

*Data inception to Dec. 31, 2017, unless otherwise indicated*

# Staff Practice Alert No. 14, *Improper Alteration of Audit Documentation*

- ❑ Issued in April, 2016
- ❑ Improper alteration of audit documentation in connection with an inspection or investigation can result in disciplinary actions with severe consequences (violation of duty to cooperate)
- ❑ Issues in recent oversight activities have heightened concerns about this at a range of firms, including global network affiliates
- ❑ Consequences of improper alteration, in many cases, are more severe than from the underlying perceived audit deficiency

# Matters involving Interference in Board Processes

- ❑ Violations of PCAOB Rules 4006 and 5110, which govern registered firms and associated person's conduct with respect to a Board inspection or investigation
  - ❑ ZERO tolerance for failing to provide information or interference with these processes
- ❑ These matters primarily involve providing improperly altered audit documentation to the Board in its inspections or enforcement processes
- ❑ These matters can be pursued in isolation, or in conjunction with other audit standards violations
- ❑ The Board has settled or finalized adjudication in **over 60** non-cooperation matters, involving **around 25 firms** and **more than 60** associated persons

# Matters involving Interference in Board Processes

- ❑ **About two-thirds** of the respondents were U.S. based firms and persons
- ❑ **About one-third** of the firms and persons involved in these matters were affiliated with the global network firms
- ❑ **Nearly one-half** of the respondents received a 5 year or permanent bar or revocation
  - ❑ **About one-third** also involved other violations of auditing standards in the associated audits

# Independence Matters

- ❑ A registered public accounting firm and its associated persons must be independent of the firm's audit client throughout the audit and professional engagement period
  - ❑ To be recognized independent, an auditor must be free from any obligation to or interest in the audit client, its management or its owners
  
- ❑ The Board has found independence violations in several areas—one significant area is violations associated with maintaining the financial records or preparing financial statements for issuers and broker/dealers

# Independence Matters

- ❑ Since December 2014, the Board has entered into settled orders with certain associated persons for violations associated with maintaining the financial records or preparing financial statements of:
  - ❑ Broker-dealer audit clients – *about 25 orders*
  - ❑ Issuer audit clients – *about 10 orders*
- ❑ Sanctions included:
  - ❑ Firms: censures, monetary penalties of \$2,500 - \$20,000, remedial measures, one year prohibitions on new clients
  - ❑ Associated Persons: censures, monetary penalties of \$2,500- \$15,000, bars with a right to reapply of typically one or two years

# Independence Matters – Sanctionable Conduct

  - Directed or supervised professionals from another firm to prepare all or a portion of the financial statements that were the subject of the firm's audit opinion
  - Maintained and prepared accounting records, including journal entries
  - Prepared the tax provision
  - Provided valuation services

# Independence Matters – Factors in Severity of Sanctions

- ❑ Range of Conduct
  - ❑ Audits of multiple issuers or broker-dealers over multiple years resulted in more severe sanctions
- ❑ Context of Conduct
  - ❑ More severe sanctions resulted from:
    - ❑ Specific awareness of independence rules
    - ❑ Continued conduct after specific notice of previous violations
  - ❑ Less severe sanctions when firms or associated person made changes with the intent to comply, but efforts fell short

# Engagement Quality Review Matters

- ❑ Engagement quality reviews are required for issuer audits and interim reviews, broker-dealer audits, and examinations/ reviews of broker-dealer compliance/exemption reports
- ❑ EQR violations were also present in 2017 settlements where other audit standard or regulation violations were also present
- ❑ The Board settled disciplinary orders in 2017 against more than **15** firms and **20** associated persons for conduct substantially relating to violations of EQR requirements

# Engagement Quality Review Matters – 2017 Settlements
